HOME AIR PURIFIER

## WSAP-100

With air pollution becoming a major concern in India, VYOM Air Purifiers are portable technology with an air quality sensor indicator and 6-filter purification phase.

### FEATURES:

- Generates Negative Ions
- Bactericidal UV Rays
- Removes PM2.5
- Double Control Operation (Panel + Remote)
- Ultra-Quiet Operation
- Multiple Filtering
- Intelligent Sensor

### AIR PURIFIER SPECIFICATIONS:

Voltage	: 220-240V-50~60Hz
Power	: 40W
Effective Area	: 30m <sup>2</sup>
Air Flow	: 150m <sup>3</sup> /h(88.29CFM)
Quantity	: 1 Unit
Colour	: White

### BENEFITS:

- Protection for Children
- Removes Pet Odour
- Protects Pregnant Women
- Improvement in Respiratory Disease
- Removes Smoke
- Protects health, improves breathing
- Reduces dust
- 360 degree protection for family

### SIX STAGE PURIFICATION PHASE: VYOM AIR PURIFIER USP

- 1. Cold Catalyst/Low Temperature Filter**  
Adsorption and decomposition of formaldehyde, benzene, TVOC
- 2. Honeycomb/Cellular/Coconut Shell Activated Carbon Filter**  
Rapid adsorption of odour, decomposition of formaldehyde, benzene, ammonia, second-hand smoke
- 3. Antibacterial & Antivirus non-woven fabric Filter**  
Removes fine particles, acarian, microbe, bacteria
- 4. High efficiency HEPA Filter**  
Eliminates mold, dust, allergens and bacteria
- 5. Ultraviolet Sterilize Light**  
Rapidly kills viruses and bacteria
- 6. Anion Purification**  
Improves air quality, multiple health benefits
